Teachers desire to have an eternal impact on their students.

WHY? Because they know that what they teach will transform lives by helping students form their opinions, deepen their knowledge of the Bible, and shape their individual choices. Teaching is an awesome responsibility!

Every teacher can identify with the mixed bag of emotions that goes with their instructional role:

- Fear of the unknown
- Excitement about the possibilities
- Anxiety in lesson preparation
- Uncertainty about student response
- Joy in seeing “the lights go on”
- Elation over positive, life-changing decisions

Who can help in this awesome task? Jesus can! He is the master teacher. By observing His teaching styles and techniques, you, too, can develop into a masterful teacher. The Impact Teaching seminar puts you in touch with Christ as your mentor. The principles that you learn will empower you to reach into the hearts and minds of your students. Lives will be transformed!

Each participant will receive a 76-page manual and how-to instruction on teaching with impact so lives will be changed for eternity.
